

Falealupo Beach Fales is a unique place on our planet. We are situated on the northwest peninsula of Savaii, the largest island in Samoa group lying just east of the international date line. This makes Falealupo the last place on earth to farewell each day. Rock pools, caves, golden beaches, and reefs contribute to the natural beauty of the area.

Located on Saupesepese Beach in the heart of Falealupo Village, our beach fales are situated within a private compound and looks out over the beautiful Pacific Ocean.

There are other numerous sites within close proximity including the legendary Moso's Footprint. It sits on white sandy beaches that stretch to approximately 50 metres to the waters edge. The fales are oval shaped, open with pull down woven blinds.{loadposition user11}
